

Work Site Guidelines and Information

The City of Bayonne, by local Ordinance, requires that all persons, contractors or utilities shall comply with the provisions of M.U.T.C.D., the Manual on Uniform Traffic Control Devices. This manual explains how to properly set up and maintain a Work Zone. A Work Zone is set up prior to beginning any work where the flow of pedestrian or vehicular traffic may be affected. The manual may be found online at <https://mutcd.fhwa.dot.gov>. Contractor training in MUTCD is strongly recommended. Go to www.atssa.com for class information or to order a printed MUTCD manual. The City of Bayonne strictly enforces the provisions of M.U.T.C.D. Additionally, go to the bayonnenj.org website for a full posting of city ordinances, specifically Chapters 3, 7 & 25.
